"Scratch-resistant, stain-resistant, and highly durable laminate that lasts."

About Us

“First impression is the last impression.” Inspired by this principal rule of the interior design industry, IPL started its state-of-the-art factory for the manufacturing of Decorative High-Pressure Laminates. Decorative Laminates are used to customize and beautify the surface of plywood and other base materials so as to suite the aesthetic & interiors of any given space.

We have also incorporated a 7-point Quality Control System to ensure that every single one of our laminate sheets goes through seven different quality control checkpoints during its production period. Our consistent and strategic quality control system, all the way from raw material input level to finished goods level has accredited us with ISI 2046:1995 certification. Our Modern & E-governed management protocols has accredited us with us the Prestigious ISO 9001:2015 certifications. Our ability to minimize harmful effect on the environment and to achieve continual improvement of our environment performance has enable us to get certified with ISO 14001:2015. Moreover, Laminates produced in our facility also meet the British European standard BS EN 438 and the American NEMALD3 standard.

Our facility has a state of the Art chemical plant, which manufactures Resins in the production of laminates. Having a modern plant allows our R & D team to experiment with innovative materials to Produce quality resins that will stand the test of time.

STAIN RESISTANT LAMINATES

Our products allow minimal stress and maintenance. We assure our products to be spill and stain resistant ones.

HI-FLEXIBILITY LAMINATES

For the better banding and flexibility we work on bettering every year. With the high level of flexibility, our laminates are suitable for corner applications.

HEAT RESISTANT LAMINATES

It becomes impossible to ignore the beauty and strength of our products. We assure the high levels of heat resistance when applied properly.

EASY TO CLEAN

If something spills, clean it up immediately. Use a dense microfiber cloth or a sponge and gently blot until you absorb whatever has spilled. Don't use too much water or any chemical for cleaning stains.

ANTI-BACTERIAL LAMINATES

When the safety has become the first priority, it is our duty to make sure that the surfaces of your homes are safe too. laminates are safe and bacteria free.

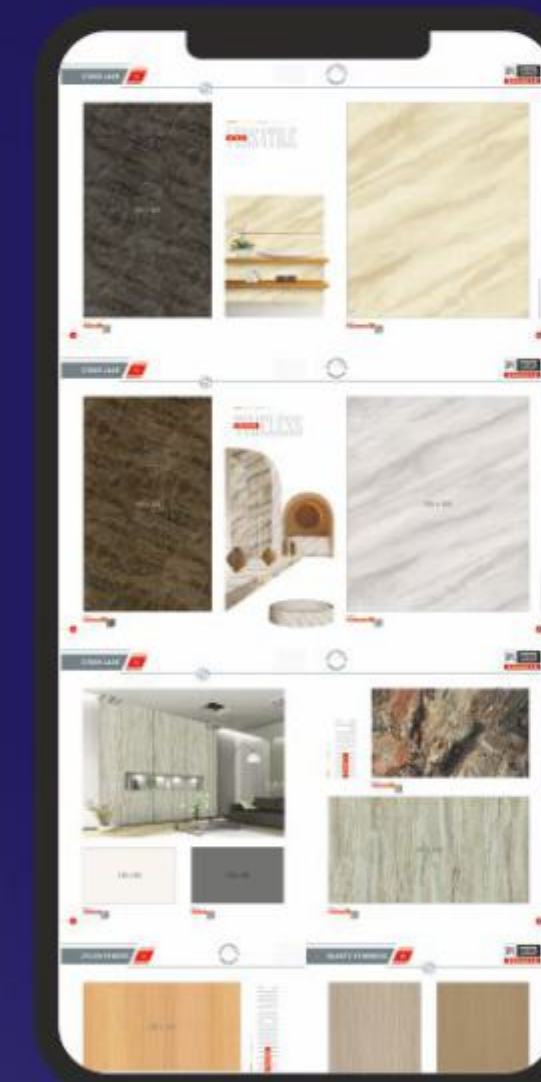

ALL-WEATHER RESISTANT LAMINATES

Weather won't let your home down. Far beyond the beauty they possess, they are tough to fight all extremes of weather.

	- Carbon Arc Light	Blue Wool Standard	5 Min.	5 Min.	5 Min.	5 Min.	5 Min.

Grade: 5-Highest, 1-Lowest, VGS: Vertical Grade Standard, HGS: Horizontal Grade Standard, Size : 1200 mm x 2400 mm

PRODUCTION TECHNICAL DATA & SPECIFICATION	
Type	: Conventional standard cold press interior grade laminate
Disclaimer	: The actual door may vary due to printing laminations
Range	: 0.80 mm (± 10% as per International standard) (Other thickness available on request)
Size	: 1220 mm x 2440 mm (8' x 4')
Product Standard	: Comprising to British European Standard: BS EN 438 American NEMA LD 3 BIS (Bureau of Indian Standard) IS : 2046 BIS (Bureau of Indian Standard) IS: 2036 Grade P1 Phenolic / Electronic Insulation ISO

PRODUCT CARE & MAINTENANCE

For cleaning the surface of the laminates, use dry cloth to
